NEW YORK, November 25.-The project

NEW YORK, November 25.—The projectors of the new stock exchange held another meeting to-day at the office of Jay Gouid. The persons present, including Gouid, were Russell Sage, Cyrus W. Field, C. P. Huntingdon, Sidney Dilion, and a representative of W. H. Vanderbilt. They reported that they had decided to fix the shares in the new exchange at \$5000 each, sithough Gouid fay red making it \$10,000. It is also said that all the shares have already been engaged, and that rooms in the United Bank building, Broadway, have been applied for as temporary quarters for the exchange until a building for the institution can be creeted. De James, of the Board of Health, says of the cholera and plague reported as raging in parts of

IMPORTANT To Grocers, Packers, Huck-steers, and the General Public.

THE KING FORTUNE-MAKER:

A New Process for Preserving all Perishable Articles, Animal and Vegetable, from Fermentation and Putrefaction, Retaining their Odor and Flavor. "OZONE—Purified air, active state of oxygen."—Webster.

This Preservative is not a liquid, pickle, or any of the old and exploded processes, but is simply and purely OZONE, as produced and applied by an entirely new process. Ozone is the antisentic principle of every substance, and possesses the power to preserve minust and vegetable structures from dreay. There is abithing on the face of the earth thatle to decay or spoil which ozone, the new Preservative, will not preserve for all time in a perfectly fresh and palastable condition.

The value of OZONE as a natural preserver has been known to our abler chemists for years, but until now no means of producing it in a practical, inexpensive and simple manner have been discovered. Microscopic observations prove that decay is due to septic matter, or minute germs that develop and feed upon animal and vegetable structures. OZONE, applied by the Prentiss method, selzes and estroys these germs at once and thus preserves. At our offices in Cincinnati can be seen almost every article that can be thought of preserved by this process and every visitor is welcome to come in, taste, small take away with him, and test in every way the meries of CONE as a preservative, we will also preserve, free of charge, any article that is brought or sent prepaid to us, and return it to the sender for him to keep and test.

EGGS can be treated at a cost of less than one dollar a thousand dozen, and be kept in an ordinary room six menths or more, thoroughly preserved, the yolk held in its normal condition, and the eggs as fresh and perfect as on the day they were treated, and will self as strictly "choice." The advantage in preserving eggs is readily seen; there are seasons when they can be bought for 8 or 10 cents a dozen, and by helding them can be notled for an advance of from the producing a temperance bereful.

Figure 10 cents a dozen, and by helding them can be notled for an indefinite period without fermentation—hence the great value of this necess for producing a temperance beverag "OZONE-Purified air, active state of oxygen."-Weester.

Butter After being treated by this Process will NOT become RANCID.

Dead human bidies, treated before decomposition sets in, can be held in a natural condition for weeks, without puncturing the skin or mutilating the body in any way. Hence the great value of Ozone to undertak ra.

There is no change in the slightest particular in the appearance of any article thus preserved, and no trace of any foreign or unnatural odor or taste.

The process is so simple that a child can operate it as well and as successfully as a man. There is no expensive apparatus or machiners required.

A room filled with different articles, such as ways, meat, fish, etc., can be treated at one time, without additional trouble or expense. additional trouble or expense.

188 In fact, there is notating that Oxone will not preserve. Think of everything you can that is liable to sour, decay or spoil, and then remember that we guarantee that Ozone will preserve it in exactly the condition you want it for any length of time. If you will remember this, it will save acting questions as to whether Ozone will preserve this or that article—it will preserve anything and everything you can think of.

ere is not a township in the United States in which a live man can not make any amount of money, from \$1900 to \$10,000 a year, that he pleases. We desire to get a live man interested in each county in the United States, in whose hands we can place this Preservedive, and through him recure the business which every county ought to produce.

A FORTUNE awais any man who secures control of OZONE in any Township or County. A. C. Bowen, Marion, Ohio, cleared \$2000 in two months. \$2 for a test package was his first investment, wonder list. \$2 for a test package was his first investment. Yender list. \$2 for a test package was their first investment.

F. K. Raymond, Morristown, Belmont County, Ohio, is clearing \$2000 a month in handling and selling Ozone. \$2 for a test package was his first investment.

D. F. Webber, Charlotte, Eaton County, Michigan, has cleared \$1000 a month since August. \$2 for a test package was his first investment.

B. Gaylord, 80 Lakille street, Chicago, is preserving eggs, fruit, etc., for the commission men of Chicago, charging bye per dozen for eggs, and other articles in proportion. He is preserving 5000 dozen eggs a day, and on his business is making \$2000 a month clear. \$2 for a test package was his first investment.

eggs a day, and on his business is making \$2000 a month clear. \$2 for a test package was his first investment.

The Cincinnati Feed Company, 498 West Seventh street, is making \$5000 a month in handling browers mad; preserving and shipping itse feed to all parts of the country. Mait unpreserved sours in twenty-four hours. Preserved by OZONE tikeps perfectly sweet for months.

These are instances which we have asked the privilege of publishing. There are scores of others, Write to any of the above parties and get the evidence diwet.

Now, to prove the absolute truth of everytaing we have said in this paper, we propose to place in your hands the means of proving far yourself that we have not claimed half enough. To any person who doubts any of these statements, and who is interested sufficiently to make the trip, we will pay all traveling and hotel expenses for a visit to this city, if we fail to prove HOW FORTUNE WITH OZONE, extrackage of Oznie, containing a sufficient quantity to preserve one thousand dozen eggs, or other articles in proportion, will be sent to any applicant on receipt of \$2. This package will enable the applicant to pursue any line of tests and experiments he desires, and thus satisfied will enable the extraordinary merits of Ozone as a Preservative. After having thus satisfied himself, and had time extraordinary merits of Ozone as a Preservative. After having thus satisfied himself, and had time to look the field over to determine what he wishes to do in the future—whether to sell the article to others, or to confine it to his own use, or any other line of policy which is best suited to him and to his township or county—we will enter into an arrangement with him that will make a fortune for him and give us good profile. We will give exclusive tawnship or county privileges to the first responsible applicant who orders a test package and desires to control the business in his locality. responsible applicant who orders a test package and desires to control the business in his locality. The man who secures control of Ozone for any special territory will enjoy a monopoly which will surely enrich bim.

on's lot a day pass until you have ordered a Test Package, and it you desire to secure an exclusive privile ge, we assure you that delay may deprive you of it, for the applications come in to me by scores every mail—many by telegraph. "First come, first served" is our rule, you do not care to send money in advance for the test package, we will send it C. O. D.; but this will put you to the expense of changes for the return of money. Our correspondence is very large; we have all we can do to attend to the shipping of orders and giving attention to our working agents. Therefore we can not give attention to letters which do not order Ozone. If you think of any article that you are doublid about Ozone preserving, remember we guarantee that it will preserve it; no makes what it is.

REFERENCES: We desire to call your attention to a class of references which no enterprise commercial merit could secure.

We refer, by permission, as to our integrity and to the value of the Prentise Preservative, to the following gentlemen: Edward C. Boyce, Member Board Public Works; E. O. Eshelby, City Comparioller; Amor Smith, Jr., Collector Internal Revenue: Wulsin & Worthington, Att snews; Martin H. Harriell and B. F. Hopkins, County Commissioners; W. S. Cappeller, County Auditor; all of Cincinnati, Hamilton County, Ohlo. These gentlemen are each familiar with the merits of our Preservative, and know from actual observation that we have without question THE MOST VALUABLE ARTICLE IN THE WORLD. he \$2 you invest in a test pickage will surely lead you to secure a township or county, and then your way is absolutely clear to make from \$20:0 to \$10,000 a year.
